

## EUTR UPDATE 2017

In support of your ongoing Due Diligence process and legal obligations under the EUTR, please find below updated information for LUMIN™ plywood for 2017. It is recommended that this is held on file as evidence under EUTR.

	<b>Information relating to LUMIN™ plywood</b>
Description of species in English name or where applicable Botanical name.	Eucalyptus, Pine ( <i>Eucalyptus grandis</i> ; <i>Pinus Taeda</i> , <i>Pinus elliottii</i> )
Country of harvest	Uruguay
Country of manufacture	Uruguay
Forest source	<p>We forecast that approx <b>90%</b> of our log raw material requirement in 2017 will be sourced directly from managed plantations in Uruguay.</p> <p>Lumin timberlands operations are principally in the departments of Rivera, Tacuarembó, Cerro Largo, Treinta y Tres. The balance of raw material (including certified and 'controlled wood') will be purchased directly from plantation owners within the Uruguayan departments outlined above. In addition, to complete our supply, we buy the remaining % wood from premium suppliers like GMO, GFP and UPM.</p> <p>*Additional details of these are available on request.</p>
